# PRODUCT

## SPECIFICATIONS SHEET

### PRODUCT OVERVIEW

#### Clearing the Way to Safer Roads, One Obstacle at a Time

The DebrisClear System by IC Innovations is a powerful and reliable solution designed to keep roadways clear and safe. Engineered for efficiency, it removes hazards like debris and stranded vehicles swiftly, reducing the risk of secondary accidents and minimizing traffic delays.

### PRODUCT FEATURES

#### Main Characteristics

- 01 Speed Governor Control:** Only device with speed-governed deployment and retraction for safe in-traffic operation.
- 02 Dual Cameras:** Provides enhanced visibility for safe, in-truck operation.
- 03 Powerful Clearing Capability:** Removes debris swiftly to keep roadways clear.
- 04 Safe Vehicles Pushing and Pulling:** Fully functioning push bumper with a stowable debris blade and accessible tow hooks.

 **DebrisClear**

#### PRODUCT NAME

DebrisClear System

#### COMPATIBLE:

Ford F-250/350/450/550  
Ram 2500/3500/4500/5500  
Chevy 2500/3500/4500/5500

#### PRODUCT CATEGORY:

Debris clearing system

# INSTRUCTIONS FOR USE

The DebrisClear System is designed for easy integration with compatible vehicles, providing a powerful and efficient debris-clearing solution. Once installed, the system allows operators to safely capture and remove debris directly from inside the cab, minimizing the need to exit the vehicle and reducing safety risks. With intuitive in-cab controls, operators can quickly deploy and stow the system, enabling a streamlined and safe debris-clearing process.

## QUALITY STANDARDS

### ✓ Durability Assurance

DebrisClear is rigorously tested to withstand harsh conditions, ensuring long-lasting performance.

### ✓ Safety Compliance

DebrisClear meets industry standards for safe in-cab operation, reducing operator exposure to traffic risks.

## PATENT INFORMATION

### PATENT NUMBER

**WO 2021/062104 A1**

### PUBLICATION DATE

**01 APRIL 2021**

## FEATURES & TECHNICAL DATA

Product Characteristics	Competitors	DebrisClear
Safely capture & contain debris up to 150 lbs at 15 mph	✓	✓
DIY installation / installation service provided	✓	✓
<b>Full functionality of both tow hooks</b>		✓
<b>Push bumper capable of pushing 80,000 lbs</b>		✓
<b>Under 130 lbs - Lightweight design minimizes wear on trucks &amp; brakes</b>		✓
<b>Single hydraulic piston / Low maintenance</b>		✓
<b>Priced under \$30k and in-stock</b>		✓

## WARRANTY

The DebrisClear System by IC Innovations is backed by a 1-year Limited Warranty, ensuring coverage for any defects in materials or workmanship under normal use. During the warranty period of 365 days from the delivery date, Incident Clear will repair or replace defective parts at no cost, using

new or refurbished components. Replacement parts carry the remaining original warranty or 365 days from the repair date, whichever is longer. This warranty does not cover issues caused by operator error or conditions unrelated to manufacturing defects.
